

# PROJECTS AND REFERENCES

**GAROFOLI  
GROUP**

# THE GROUP

---

The Garofoli Group is among the world leaders in the design, construction and sale of doors and is particularly specialised in solid wood doors. The Group, led by founder Fernando Garofoli and his heirs, is positioned in the high end of the market of reference and includes the companies Garofoli s.p.a. and Gidea s.r.l.. Today the Garofoli products are concrete symbols of the excellence of "Made in Italy" in the world.

Garofoli s.p.a. and Gidea s.r.l. produce about 400 door models, each of which can be customised and is available in many versions and colours. The 360 company employees produce more than 200,000 doors a year, in addition to the production of walk-in closets, boiserie panelling and parquet. The Group is becoming an important point of reference, not only for doors but for furnishing functional environments as well.

Garofoli s.p.a. has always been distinguished by its marked sense of quality and for the care it takes in selecting the woods used; a philosophy which has always been at the base of the company's success. Fernando Garofoli engraves signature on each door to personally guarantee his quality, transforming it from a simple industrial product into work of art.

# SUSTAINABILITY

---

Quality has always been one of the guiding values of the Garofoli Group. Quality, which, seeing the materials used to manufacture doors and coordinates, cannot ignore a profound respect for and continued protection of the environment. This is why we have taken another step further in the direction of eco-sustainability and safeguarding the planet when it comes to our products. Since October 2015, the company can in fact officially certify its products with the FSC® mark, which guarantees the eco-friendly origin of the material used and therefore, the eco-sustainability of the finished product. Love for the planet has also led us to focus on renewable energy sources. This is the reason why we have installed a photovoltaic system with a total power of 5.5 megawatts in our headquarters.

# KNOW-HOW

## EXPERTISE IN MATERIALS

We have been dealing in products made in solid wood since 1968. This has allowed us to get to know every detail of the different finishes in terms of aesthetics and performance over time.

## PROMPT DELIVERIES

Innovations in processes and machineries allow us to oversee large-scale projects, guaranteeing precision and punctuality for the distribution and delivery of products.

## INTERNATIONAL PROJECTS

The Garofoli Group is present in every continent and over the years, it has developed specific know-how to respond to area-specific design requirements.

## CONSTANT SUPPORT

Together with the product, we guarantee the support of our professionals, both in terms of project consultancy and the assembly and fitting of the different collections.

# INTERIOR DOORS

---

The Garofoli Group doors tell a story of success: a statement of the quality and design, Made In Italy, that has become established over time to achieve a range of interior doors that is absolutely complete in terms of materials and types of opening, as well as styles.

Although it goes without saying that the Group's heritage is based on solid wooden doors, our development of new projects means we now offer all materials:

→ [WOODEN DOORS](#)

→ [LACQUERED DOORS \(GLOSSY OR MAT\)](#)

→ [LAMINATE DOORS](#)

→ [GLASS DOORS](#)

 [Discover all the collections](#)

# ARMoured DOORS

---

Lady, Regina and Sovrana: three security door collections designed to offer top performance whether you are seeking an entry level product or if you want the top of the range. Three different ideas, able to combine perfectly with our whole family of products, because they feature the possibility to be coordinated with all of Garofoli's finishes.

Three different ideas, able to combine perfectly with our whole family of products, because they feature the possibility to be coordinated with all of Garofoli's finishes. Garofoli armoured doors are also available in Filomuro version and offer up to protection grade 4.

→ ENTRANCE DOORS

→ PANIC ROOM DOORS

# FIREPROOF DOORS

---

There are ten different types of fire door offered to guarantee compliance with law and to protect safety.

These ten solutions not only stand out for their ability to withstand fire, but also for their style and technical characteristics.

A range with two great plus points: the REI 120 version, which is also in wood, and the Filomuro Fire Door model with 30, 60, and 120 resistance.

# PARQUET

---

Style, beauty, comfort, prestige and durability, together with respect for the environment: there are lots of reasons to choose a Garofoli wooden floor. With Garofoli Group parquet you can enjoy all the beauty of wood of the highest quality and the certainty of a choice that's eco-friendly. The wood used for our parquet comes from sustainable forests. Our parquet also combines perfectly with our doors, wardrobe doors and boiserie panels. For a prime quality aesthetic result, the parquet can also be combined with a coordinated SKIRTING BOARD, corner and thresholds.

Our Parquet is available in 12 o 16 mm thickness and consists of 3 layers. The top and bottoms layers are made in a single piece of prime wood glulam, 3.5 mm thick, both varnished for improved resistance to moisture and to give stability to the middle layer in birch plywood.

The collections:

- GAROFOLI PREMIUM SELECTION
- GAROFOLI PLATINUM SELECTION
- GAROFOLI VINTAGE SELECTION
- FRENCH HERRINGBONE
- LIGHTWOOD
- SEAWOOD

[Discover our wood flooring](#)

# CUSTOM UNITS

---

The total synthesis of shapes and colours in the Garofoli range is completed with a line of fitted wall units, shelves and bookcases.

It's about more than design and style: the easy, practical use that makes this range an innovative choice of great success. Our fitted wall units have been designed for easy, time-saving installation.

 [Take a look at our solutions](#)

# NIGHT SYSTEMS

Tidying, organising, storing, and furnishing. Miria can do all of these things in style. A collection of panels and shelves that let you create built-in wardrobes, walk-in wardrobes built to measure and a host of different storage units.

From your entrance hall to under the stairs, any room can be designed in complete freedom, thanks to the two main features of this collection: versatility and customisation. Miria is much more than a collection of panels for wardrobes, it is a genuine interior design system for both homes and public spaces.

Wardrobes and walk-in wardrobes are available in 5 different collections:

- MIRIA STANDARD
- MIRIA PLANIA
- MIRIA GLASS
- MIRIA SMOOTH
- MIRIA FILOMURO

For the internal equipment it is possible to choose between different collections:

- MIRIA BASIC
- MIRIA UP
- MIRIA PLUS

 [Download catalogue](#)

# BOISERIE

The Boiserie panel is the ideal product for distinguishing separate areas or for renovating a room without too much disruption.

With a wood covering you can change the look of a room in just a few steps, choosing from the mid-height and full length versions. Smooth or routed, in classic or modern style, wood or lacquer: boiserie panels offer an extraordinary possibility when it comes to interior design choice that aims to create elegant, customised solutions.

Wood panelling is available in:

- PANELLED
- SLATTED
- SMOOTH
- SEGNO (ENGRAVED SOLID WOOD)

# KITCHENS

To meet the particular needs of managing spaces in residences, contract projects and hotel suites, we have introduced a line of custom-made kitchens that make the most of any type of volume. We think that kitchens should be designed to combine functionality, ease of maintenance and style, whether it is large kitchens with an island or small kitchenettes inserted in an open space.

With the Garofoli "Custom Kitchens" collection it is possible to create a tailor-made kitchen, choosing finishes and materials that perfectly match the other furnishing elements from doors to floors.

# TORRE LITTORIA

## LUXURY RESIDENCE TORINO

### THE PROJECT

Torre Littoria, an iconic building in the heart of Turin. A redevelopment project that aims to give a new identity to the 19 floors of the building.

With this reference frame, Milano Contract District, in collaboration with Camerana & Partners, has created a series of luxury apartments that are part of a larger prestigious lease project, developed on the Milan-Turin axis by Reale Immobili.

### PRODUCTS

For the interiors of the luxury residence were chosen our glass doors - G-Like and BiSystem collections - and the lacquered doors of Miraquadra and Filomuro.

# APARTO GIOVENALE

STUDENT HOUSING  
MILANO

# APARTO GIOVENALE

## STUDENT HOUSING MILANO

### THE PROJECT

A symbol of revitalization and enhancement. The new Milanese student residence, located a few steps from the Bocconi university campus, is an opportunity for renewal for a corner of the city that has long expressed the desire to trigger new dynamics of aggregation and socialization. The intervention involves the demolition of an abandoned lot and the construction of a new residential complex at the service of education and culture.

With a high-quality architectural system, able to meet the new needs of contemporary living, the building aims to offer high-quality accommodation for students and young workers, with shared services and open spaces towards the city. It is a high quality product, which requires the application of a careful and meticulous management of the construction process through the implementation of the most advanced internal linking techniques, our services / project management and process optimization.

The doors installed are over 1,000.
